Oversea Student Internship Program

Dr. Worajit Setthapun

adiCET Profile

Asian Development College for Community Economy and Technology (adiCET), Chiang Mai Rajabhat University (CMRU) functions as a research and development institution for the well-being of the society by using green technologies. The institution offers M.S. and Ph.D. degrees in Community Energy and Environment. adiCET campus is on Chiang Mai World Green City (CMGC), which is the model community that uses 100% renewable energy and green technology.

adiCET invites interested students to apply for an internship program at the CMGC. The student will be assigned the independent research project in the field of green technology, smart grid, renewable energy, sustainable community development, eco-tourism or green business.
